

Systems/Network Engineer

A great career awaits you! Build your experience, develop new skills, work with enthusiastic people and give yourself an opportunity to learn from experienced IT professionals. Find the right role for you with Area9.

Do you enjoy working with innovative technologies? Do you excel at designing new systems? Join Area9 to contribute your knowledge and expertise, with a supportive management environment to allow you to get on with the job.

Area9 IT Solutions is a well known, innovative and dynamic IT solutions and service-delivery company based in Darwin, with over 500 clients. Due to strong business growth and increased capabilities, we are seeking a Systems/Network Engineer.

In this role, you will undertake installation, relocation, maintenance and expansion/upgrade of IT network infrastructure systems for Area9 clients, plus maintenance support on LAN and WAN Networks.

You will work across a range of technologies which include Microsoft Windows server, desktop & application software; VMware and Citrix Virtual infrastructure; and server, desktop and network hardware.

Experience

If you have systems/network engineering experience, do yourself a favour and get on board with Area9 today.

- 4 - 5 years' experience in server and network environment support
- Wide experience in client management and networking technologies
- Excellent understanding of IP networking, WAN and LAN network troubleshooting and analysis
- Experience with routing protocols, firewalls, switches, routers and redundant networking

Personal Attributes

If you are self motivated, have a positive, client-focussed attitude, the ability to work under pressure while maintaining composure, this job is for you! An ability to prioritise your workload, work autonomously, think laterally and solve technical problems while maintaining attention to detail is also required.

Qualifications

Industry qualifications in one or more of Cisco's Certifications, including CCNA, CCNT, CCIE and ITIL Foundation Certification or similar. Cisco Wireless, VOIP and/or suitable industry experience is desirable.

Area9 has a **passion for staff development** and you'll have an opportunity to achieve relevant industry certifications with training provided by Area9. Salary will be commensurate with your skills, qualifications and experience. We would love to hear from you by 14 January 2012. Please send a brief application and CV to HR@area9.com.au
