

What are the characteristics of a social workplace culture?

Work is one important source of an individual's social identity, and workplace interaction is a crucial means of developing that identity.

The team at Area9 are a social bunch, and Area9's social club recently hosted a breakfast to continue its tradition of sharing and togetherness. Staff partook in a fantastic feast before commencing work for the day!

Well done and thanks to the Area9 Social Club – Team Leaders Kara Crowe and Nathan Land; Procurement Manager Jackie Leonard and HR and Administration Officer Katie Connolly
